

QUICKCHAT

The fastest way to communicate & resolve alarms!

Communicate, Cancel or Escalate in record time
Customers can chat with their contact list and either cancel or dispatch on an alarm with just a few clicks.

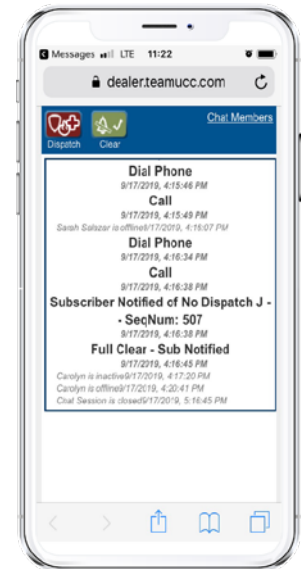

Fast and Secure Communication

SMS texting is immediate notification for your customer and the chat room environment is encrypted for secure communication.

Technology Customers Trust and more importantly USE!

Calls are often ignored, but texts have a 98% open rate within 3 seconds!
